Corey Ganser Bio
Engineering Manager at Apple
With over 20 years in the tech industry, Corey Ganser is an accomplished Engineering Manager at Apple, where he leads an internal tools team. Corey excels in creating technology solutions that bridge the gap between innovation and practicality. His extensive experience spans roles across startups and companies that have focused on collaboration, machine learning, cyber security, and clean energy. Corey is dedicated to making technology more human, prioritizing customer-centric approaches and demystifying complex technologies.
